

How to Review Time Confirmations of Workers

Start by opening the SAP transaction **CATS_DA** – Display Working Times

Next, we are going to setup your defaults.

Start by changing the reporting period to **Key Date**.

Next, we will add all the employee numbers that are currently in the shop. You can add or remove people to customize it to your liking. To do this click the box next to personnel number.

Once satisfied click enter or the clock with the check mark.

Now let's save what we've done. Click the save icon in the upper left of the screen to create a variant.

Now back out of the transaction altogether and come back in. You should see this option now on the toolbar. It should be what you just saved.
